A) Keep current legislation-

B) Allow each business an additional sign – either sandwich board with 6 ft of sidewalk clearance OR wall mounted attached to building

- could be difficult to enforce
- need 6 feet to keep machines
- may need to provide enforcement authority ability to police
- could lead to a very cluttered situation
- may create a liability issue for the Village

C) Allow businesses a sandwich board only if they have sufficient sidewalk clearance

- May create liability issues for the Village
- May encroach upon land ownership rights
- This treats different locations differently
